

OLD GLORY IS RAISED

ROSEDALE SCHOOL CHILDREN ARE APPLAUS WITH PATRIOTISM.

The Stars and Stripes Saluted With Cheers at the Flag Raising at Whitmore School Yesterday Afternoon.

Yesterday was a proud day for the children of the Whitmore school, Rosedale, and they fairly bubbled over with patriotic enthusiasm. It was the day for their flag-raising and the event was an unequalled success. Everything conspired to make it memorable, for it was no ordinary flag-raising, though, after all, there is really no ordinary flag-raising, every such event being distinctly notable.

This flag-raising was in honor of the Kansas boys at Manila, and the heroes at their far away station were very near to the hearts of those cheering children.

Principal Killian, of the Whitmore school, had invited the children of the Columbia school to attend the exercises, a pretty interchange of courtesies, as the Whitmore children had attended the recent flag-raising at the Columbia school.

The Columbia school children marched to the Whitmore school headed by their drum corps and on their arrival the pupils from both schools formed a circle about the flag-staff. The exercises were begun by the singing of "America," after which Rev. Mr. Walden offered prayer. Fifty-two of the Whitmore children were dressed to represent the various states and territories of the United States and five represented Cuba, Porto Rico, the Philippines, Hawaii and Uncle Sam. Smith's pickaninny band rendered a number of patriotic airs which were loudly applauded.

After the exercises a brief address was given by the principal and the teachers for the good work they had done during the past year. He pointed out the value of the lesson of patriotism taught on such occasions and declared that the school was the best place for such lessons to be taught. Mr. Walden's address was eloquent and was loudly applauded by the children and those children of a larger growth who witnessed the exercises.

The band struck up "The Stars and Stripes" and the children sang "The Star-Spangled Banner" and there came the supremely interesting event of the day—the raising of the flag over the heads of the people, who saluted it with more cheers. A hundred hands pulled the rope and the flag soared high into the air. The flag was greeted with the booming of cannon. The patriotic song and again sang "America."

E. L. Smith spoke briefly of the late war with Spain and extolled the valor of the Kansas boys at Manila, in whose honor the flag was raised.

The school house was decorated for the occasion with flags and bunting and over the door hung an elegant portrait of Colonel Fred Funston.

PUBLIC LIBRARY REPORT.

Miss Carrie W. Whitney Describes the Great Institution of Which Kansas City Is Proud.

At the regular meeting of the board of trustees Thursday night, bills amounting to \$2,000 were allowed and warrants ordered. E. A. Gile was appointed assistant janitor at the Central high school in place of H. A. McPherson, who has resigned. J. W. Thompson was appointed janitor at the Central high school. The resignation of Miss Emma Smith, a teacher at the Garfield school, was accepted and Miss Pearl Lennert was appointed to teach in her place. The amount of \$2,000 was allocated and the amount of \$2,000 was allocated and the amount of \$2,000 was allocated.

ORIGINAL HOBSON-KISSED GIRL A BRIDE.

Miss Emma Arnold, the beautiful bride, heroine of the famous Hobson kiss episode, is a bride.

Last Tuesday a wedding took place in the exclusive Jewish set in the West end. The bride was Miss Emma Arnold, the groom was Mr. Charles S. Erber, of Texarkana, Tex. The home of the bride's mother, Mr. C. W. Gelle street, was the scene of the wedding. The bride's beauty was set off by the frost-like and gown of her wedding costume. There were many gifts and many congratulations. It was much like any other fashionable wedding.

BAKING POWDER ABSOLUTELY PURE

Makes the food more delicious and wholesome

and most helpful manner. Mr. Alfred Gregory, Dr. Henry Hopkins Rev. Mr. Cameron Mann, Miss Ethel Allen, Mrs. Silas C. Delap, Mrs. Laura Scammon, Professor Mr. Greenwood and the librarian were appointed as members of a special book committee. By a partial expenditure of this money the number of volumes has been increased from 20,000 to 40,000. In selecting the books the different classes have been rounded out, and the art and reference classes materially improved. Books for special departments, such as science, club work, and Manual Training school work have been added. Lists were placed before the "book committee" by specialists, giving the best selections on all scientific subjects; the various clubs sent their proposals in order that books containing information on the different topics for essays and discussions might be purchased. The desired books of the high and Manual Training schools will be aided in their work by finding the necessary books for their respective branches; and so every division has been carefully considered in purchasing new books. Books in German, French, Spanish, Italian and Swedish have been selected from lists prepared by those familiar with the languages.

During the year two ladies, unfamiliar with the work, have entered the library as assistants, and the usual instruction in the different departments, and are now occupying positions as librarians in small libraries. A department for the blind has been decided upon and will, it is hoped, prove a pleasure and profit to the blind of Kansas City and vicinity. The Jackson County Medical Library was placed in the public library, accessioned, and thoroughly catalogued, to be used by anyone bringing a permit from a member of that association.

Mr. James M. Greenwood, superintendent of the Kansas City public schools, presented to the library a most valuable collection of arithmetic, numbering 200 volumes, one of the most complete in the United States. The success of the library is largely due to the harmonious feeling existing among the assistants and their united efforts to the utmost to provide an interesting programme. The exercises will be as follows:

WESTPORT JUNIORS' DEBUT.

They Will Have Charge of the Exercises at the High School Next Monday Morning.

The junior class of the Westport high school will have charge of the exercises in the assembly hall next Monday morning. As this is the first appearance of the juniors as a class, they have exerted themselves to the utmost to provide an interesting programme. The exercises will be as follows:

Tablet for "Echoes of Lucerne," Misses Hodge and Kern. Recitation, scene from "The Rivals," Mr. Dale Hidenbaugh. Essay—"The Influence of Books," Miss Marietta Critch. (written by junior class) Mr. Forrest Pinkston. Piano duet—"Postilion d'Amour," Misses Hodge and Kern. Recitation—"Champion of Her Sex," Misses Edna Watson, Blanche Fitzgerald, Adelaide Eldard, Laura Hamilton, Louise Chase, Mary Sager, Lulu Longshore and Martha Dewey.

THIS IS THE TURNING POINT.

Girls in the Manual Training High School Have Reached the Bread-Making Crisis.

The girls in the cooking class at the Manual Training high school have arrived at the critical point in their course of instruction—that of making bread. They have learned of the different kinds of dough and have practiced upon baking powder biscuits, using milk mix with butter, plain milk, butter mixed with hard and pure butter, and they have tried the varied effects of a good deal of kneading, a little rest as little as possible. Now the crucial test comes in the correct fixing of the yeast, the proper amount of kneading and the consequent producing of a good even brown crust on top of a light, whole and pre-stuffed with raisins, of cake.

AT CENTRAL THIS EVENING.

A Russian court scene during the reign of Boris and a two-act farce entitled "Between the Acts" will be the features of the programme given at the Central Literary club. In the former, the president of the society, Miss Thelma Orison, will be seated upon the throne and her subjects, the members of the society, will be gathered around her.

Warmer, Rain and Colder.

Lowering clouds covered over the city all day yesterday, while the atmosphere made the high temperature unbearable. It was one of those "muggy" days when the slightest exertion is wont to bring out profuse perspiration. The temperature rose as high as 70 at 4 o'clock in the evening.

The outlook for today is pretty badly mixed up. There will be showers preceded by a rising and succeeded by a falling temperature, according to Weather Observer Ponnon. This condition is likely to ensue for several days.

Duties Must Be Paid.

The customs officials received a package of handkerchiefs yesterday which had been sent from Manila to Iola, Kas. As the goods were dutiable the postmaster at Iola sent the package to Collector Kissinger who has informed W. T. Conley, who received the goods, that he will be required to pay the duties on the package. The person intended upon the payment of the necessary duties. The handkerchiefs were sent by Sergeant Conley, of the Twentieth Kansas regiment, now at Manila. The box was with instructions to the postmaster at Iola with instructions for him to deliver the goods upon payment of the necessary duties.

Charged With Robbery.

Belle Irvine and Dollie Warner were arraigned yesterday before Justice Walls on a charge of highway robbery. They were charged with holding up and robbing near Eighteenth and Walnut streets, Thursday night. C. L. Clifford, from near Lee's Summit, Tex. hearing is set for Thursday.

THE KANSAS CITY JOURNAL, SATURDAY, MARCH 16, 1929

WILL BE APPORTIONED

NEW METHOD OF HANDLING REVENUE OF WATER DEPARTMENT.

Board of Public Works Will Know Just How Much Is Available in Each Fund—Receipts Will Be About \$400,000.

The revenue of the city water department will in the future be apportioned to the various departments in which it is necessary to expend it, so that at the beginning of the fiscal year there will be an understanding as to the exact amount that is available for any one purpose.

This determination was reached at a recent meeting of the board of public works and at the meeting to-day the comptroller will be asked to furnish the board with an estimate of the total revenue of the water department, so that the apportionment can be made at once.

In the past it has been the custom to set aside the sum fixed by law for the payment of interest and principal on the outstanding water works bonds, and then draw on the balance as it was needed. In consequence, there have been expenditures for betterments that, while needed, were not indispensable. The board now proposes to apportion the funds so there will be a certain amount available for salaries and running expenses, the repairs at Quindaro, leaving new mains and contingent expenses. Collector of Water Rates Squier stated yesterday that the revenue in the water department for the coming fiscal year would not fall far short of \$400,000.

TO SECURE SPANISH GUNS.

Effort Will Be Made to Obtain Trophies of the Late War from City Parks.

Kansas City is going to make an effort to secure some of the guns captured from Spain in the late war, to be placed in the parks and boulevards, and at the next meeting of the council Alderman Beardsley will offer the following resolution:

"Whereas, In the recent war between the United States and Spain there fell into the possession of the United States ordinance of various kinds which have been taken and are held by the government as trophies of war; and it is believed that it will be the disposition of the government to permit the various prominent cities of the country to have and to take into their possession some of these trophies; and whereas, the city of Kansas City is one of the cities of the country which has been designated by the war department of the federal government, requesting the gift or loan to Kansas City of such trophies, the sum of it secured, to be placed upon the park board to be by them permanently placed in such public grounds or on such boulevard or driveway as to them shall seem best; and to that end the city clerk, on behalf of these houses of the common council be requested and directed to secure, if possible, the co-operation of members of the United States army and navy, and the city clerk will open a correspondence with Webster Davis and others, asking them to do all they can to effect the object."

TURKEY CREEK SEWER.

City Engineer Will Submit Plans to the Board of Public Works.

The following will take part: Misses Thelma Orison, Kate Holloway, Helen Stout, Edna King, Ruby Ridgeway, Buford Scruggs, Ethel Murray, Messrs. Will Lawrence, Melville Hudson, Allan Withers, George Mulford, Ray Barnett, Roy Standish, Arthur Byrne and Virgil Platte.

DON'T GO FAR ENOUGH.

Mr. Greenwood Favors University Extension Bill, but Permanent Appropriation Should Be Made.

Superintendent J. M. Greenwood says that along with the university bill, which proposes to raise a fund for the state university by placing a tax upon legacies, should be another. This would call for an amendment to the constitution that would make possible the putting aside of a permanent appropriation for the university and the state schools. This, Mr. Greenwood says, would do away with a great deal of the needless wrangling and waste of time that occurs every two years under the present arrangement, and would place the educational institutions above the political plane—as they should be placed.

SCHOOL NOTES.

The Longfellow school is having its half term examination.

Colonel Theodore Case was a visitor at the Martin school yesterday.

These were substitutes yesterday: Lillian Seebree at the Bryant and Olive Lyon at the Benton.

J. L. Shouse, professor of English at Manual Training high school yesterday.

The teachers from the Kensington school, which is in the Ashland district, just announced that of Kansas City, visited the Jefferson school yesterday.

The senior class meeting at the Central high school, which was called yesterday for the purpose of electing officers, adjourned until its next time for meeting, two weeks hence.

The teachers of the Linwood school have finished McMurry's method of recitation, which they have been studying since October. One-half hour every Friday morning has been devoted to this study.

An interesting programme was given at the Central high school yesterday morning by the Society of Literature and History in which the following took part: Beale Daniels, Nellie Milan, Roy Harrison, Fred Elliott, Fred Pabst and Margaret Elliott.

At the principals' meeting, the principal, F. D. Tharpe, of the Lathrop school, will read a paper upon "What Does the Study of Art Mean to the American People?" The discussion will be led by E. T. Chace and Miss Gertrude E. Green.

Miss Kube, Miss Cunningham and Miss Engelman, of the Scarritt school, have prepared for their rooms 100 representative European views which they will use in their history and literature classes. Besides being helpful in this, they add a great deal to the general attractiveness of the rooms.

Miss Gertrude Hall, at the Scarritt, has a very pretty display of the number of plants in the windows. The beauty of that is not, however, spoiled by the unsightly spots that contain the plants. There is a very pretty display in every window.

Today and tomorrow a pair of shoes \$5.00 and \$6.00 patent leather, for only \$2.00 to-day. (Adv.) J. J. PONTIUS, 1115 Main.

ON THE MARKET.

Very Little Change in Prices—Eggs Are Plentiful at Two Doses

For this week there is not much change in the prices at the market. Just at present, the ragtags and bobtails of the winter market are still with us and the spring quantities are still scanty to come in such quantities as will warrant a moderate price on them.

There are plenty of eggs on the market and the dealers are having their hands full with a glut of eggs. The price for a dozen will be two dozen for 25 cents; 15 cents per single dozen. Country roll butter is getting scarce. One dealer said that he was unable to use more than one-third of what he received from the farmers. Creamery butter remains at 20 cents per pound.

In the fish market, bass, crappie and all kinds of pan and game fish are scarce. There is plenty of lake and river fish. Salt water fish are beginning to come in in abundant quantities, but the prices remain high. In the line of new fish on the market may be mentioned bluegills (about 10 at 15 cents per pound, and sea trout at 12 1/2 cents per pound).

The following is a list of the fish on to-day's market and the prices are in cents per pound: Trout, white, 12 1/2; pike, 12 1/2; pickerel, 12 1/2; white bass, 12 1/2; blue bass, 15; catfish, 12 1/2; bullheads, 12 1/2; buffalo, 10; carp, 10; shad, 10; salmon, 15; ring perch, 10; herring, 10; crappie, 12 1/2; sunfish, 10; white perch, 10; Spanish shad, 20; blackfish, 20; blue mackerel, 25; cod, 15; haddock, 12 1/2; pompano, 25.

For this week there is a good selection of vegetables. The following prices are quoted: Turkey hens, 13 1/2 cents per pound; broilers, 15 to 20 cents apiece; ducks, 12 1/2 cents apiece; mixed ducks, 20 cents apiece; mallards, 25 cents apiece; capons, 20 cents apiece; canvasbacks, 20 cents apiece, and capons, 20 cents apiece.

Spring lamb is a trifle lower at hind quarters, \$1.25; fore quarters, 30 cents. Summerweight is on the market at 20 cents per pound.

Warmer, Rain and Colder.

Lowering clouds covered over the city all day yesterday, while the atmosphere made the high temperature unbearable. It was one of those "muggy" days when the slightest exertion is wont to bring out profuse perspiration. The temperature rose as high as 70 at 4 o'clock in the evening.

The Outlook for Today.

The outlook for today is pretty badly mixed up. There will be showers preceded by a rising and succeeded by a falling temperature, according to Weather Observer Ponnon. This condition is likely to ensue for several days.

Duties Must Be Paid.

The customs officials received a package of handkerchiefs yesterday which had been sent from Manila to Iola, Kas. As the goods were dutiable the postmaster at Iola sent the package to Collector Kissinger who has informed W. T. Conley, who received the goods, that he will be required to pay the duties on the package. The person intended upon the payment of the necessary duties. The handkerchiefs were sent by Sergeant Conley, of the Twentieth Kansas regiment, now at Manila. The box was with instructions to the postmaster at Iola with instructions for him to deliver the goods upon payment of the necessary duties.

Charged With Robbery.

Belle Irvine and Dollie Warner were arraigned yesterday before Justice Walls on a charge of highway robbery. They were charged with holding up and robbing near Eighteenth and Walnut streets, Thursday night. C. L. Clifford, from near Lee's Summit, Tex. hearing is set for Thursday.

THE MEXICAN CONSUL

GETS HEALTH IN THE SPRING BY TAKING PAINE'S CELERY COMPOUND.

compound helped me and gave me a feeling of new strength is a fact."

ENRIQUE GUERRA

As spring comes on, most women and many men who have lived hot-blooded during the winter find themselves under great strain, unable to sleep soundly, without appetite, easily tired, frequently distressed by headaches, and lacking "snap" and strength—the result of poor blood and weak nerves.

To those in this condition, the thousands of testimonials from people like Mr. Guerra who have been benefited by Paine's celery compound should be reason enough for giving this best of all spring medicines at least a trial. What it has done for others it will do for the reader. It will purify the blood, clear the complexion, rejuvenate the exhausted nervous system, insure good digestion, bring on healthy sleep, and restore one's strength and vitality.

No other medicine in the world ever accomplished so much, and a single trial will add another to the long list of people in every community who gratefully send the praises of Paine's celery compound.

Mr. Guerra was not long in finding out the great reliance that is thus placed upon Paine's celery compound by the best informed people, and he was not slow in taking advantage of the great remedy himself. Here is his statement, unqualified, conclusive:

Kansas City, March 16, 1928.

"At times, when I have been seemingly exhausted from arduous work, Paine's celery compound has been of such benefit to me that it seems now I could hardly have progressed but for it. When sleep was slow in coming and my appetite flagged, a general tonic up of my system followed the use of the compound. While I am not a doctor in things medical, I do know a fact when I encounter it, and that Paine's celery

TURKISH BATHS FOR LADIES ONLY.

Magnificently appointed rooms to the scientific giving of Turkish baths. The effect is strengthening, beautifying and healthful. The thorough cleaning of the skin cannot be obtained by any other bath known. Competent lady attendants. Reasonable, established prices.

PARK HEARING IN ST. LOUIS.

Judge Field, for the Plaintiff, Raises Five Points—Hearing Continued Until This Morning.

ST. LOUIS, March 12.—(Special.) The hearing of the North Terrace park certificate injunction case was begun this morning before United States Judge Elmer B. Adams. Judge R. H. Field appeared for Fred G. Bondis, the plaintiff, while Hon. C. O. Tichenor, D. J. Hart, counsel for the park board and Clarence S. Palmer appeared for the park board.

Judge Field raised five points in his argument. First, that the ordinance providing for condemnation was not properly filed in the circuit court; this was decided against the judge. Second, that the notice was not printed in the official paper. Third, that the city was not entitled to the property to be reclaimed fronts on Twenty-first street west of Fairmount avenue, and on Brook street for a distance of 20 feet west of it. Expected that the property owners who will be benefited will bear part of the expense.

McMUNN'S ELIXIR OF OPIUM

Is a preparation of the Drug by which its narcotic effects are removed, while the valuable medicinal properties are retained. It possesses all the sedative, anodyne and anti-spasmodic powers of opium, but produces no sickness of the stomach, no vomiting, no constiveness, no headache. In acute nervous disorders it is an invaluable remedy, and is recommended by the best physicians.
